+ Indices for the years 1947 to 1950 have been obtained by dividing the indices for these years on base 1947=100 by the index for 1951 on the same base.

Note:- The above figures exclude those for Railway Workshops and groups of industries of seasonal nature consisting of Food, Beverages, Tobacco and Gins and Presses. The figures of per capita annual earnings have been derived by dividing the actual wage bills by the corresponding figures of average daily employment. Figures of average daily employment are as obtained from returns received under the Payment of Wages Act, 1936 and hence are different from those collected under the Factories Act, 1948.
